

To: Michael Powell

I strongly OPPOSE the proposed changes that would increase the consolidation of media ownership. Americans NEED to have access to diverse views on issues of the day in order to properly understand and make decisions about the decisions made by our leaders. This need will not be well served when media is consolidated in the hands of a few companies that may have their own political agendas. This is not an issue of the right or left. Any group with too much power is a threat to our democracy.

On June 2nd, I urge you to retain the current ownership rules.
